

Why has being a Joy Attwood Scholarship recipient been important to you? (Please provide detailed information, with specific examples, expressing your personal story. 100 Word Limit).

Being a Joy Attwood scholarship recipient would be important to me as it would give me the opportunity to expand my horizons and reach my goals of traveling the world and expanding health care to make it more affordable and available. It would provide me with the opportunity to continue my education in order to be a well-informed citizen of the world, and be able to give back in the subjects I am passionate and informed about.

2 (a): What is a social problem that you would like to solve in the future for your community. (We advise you to provide detailed information, with specific examples, that express your personal connection with it. 150 Word Limit). *

My aspiration to become a doctor and give back to my local community has transformed into giving back to foreign countries to make healthcare more affordable and available through my recent conversations with the scholarship recipients. Receiving the scholarship would help me research ways of improving health care to make it more accessible especially in countries where people have to walk miles to receive the medical care we take for granted. My work with the scholarship recipients has showed me how important healthcare is especially in places where doctors and nurses are in lesser numbers such as in Nepal.

2 (b): What are you going to do to solve this issue? (100 Word Limit). *

My conversations with the scholarship recipients have made me interested in international health care availability. I am unsure how exactly I will solve this issue of un-available healthcare, however I do know what I plan on doing for the near future. I hope to attend a four year university and study international affairs, public health and I hope to travel using a study abroad program. I am unsure how I will be able to directly contribute to the progress of healthcare, however I am looking forward to further research on the needs of specific countries and healthcare in these countries.

3: Describe a significant challenge or risk that you have experienced or undertaken in your life that required courage. (We advise you to provide detailed information, with specific examples, that express your personal connection with it. 300 Word Limit). *

4: Provide one past experience or accomplishment that demonstrates your leadership potential. How does this experience reflect on the overall issue you would like to solve in the future? (300 Word

Limit). *
